Prediction of extent of absorption from permeability and Log P

- Log_P correlates well with Caco-2 permeability
- Caco-2 cell lines can accurately predict the extent of absorption

Group	Drug
High Permeability (P _{app} > 10 ⁶ cm/s)	1. Caffeine
	2. Carbamazepine
	3. Cyclosporin
	4. Digoxin
	5. Ethanol
	6. Fentanyl
	7. Lidocaine
	8. Nitroglycerin
	9. Propofol

ABOUT THE CONFERENCE:

Pharmaceutical Sciences is a dynamic and interdisciplinary field that aims to integrate fundamental principles of Physical and Organic Chemistry, Engineering, Biochemistry, and Biology to understand how to optimize delivery of drugs to the body and translate this integrated understanding into new and improved therapies against human disease. Herbal technology involves use of plant based formulations to alleviate the diseases. Substances derived from the plants remain the basis for a large proportion of the commercial medications used today for the treatment of heart disease, high blood pressure, pain, asthma, and other problems. Herbal drug technology is used for converting botanical materials into medicines where standardization and quality control with proper integration of modern scientific techniques and traditional knowledge is important. Further, translational research is the process of applying knowledge from basic biology and clinical trials to techniques and tools that address critical medical needs. Unlike applied sciences, translational research is specifically designed to improve health outcomes. As a relatively new research discipline, translational research incorporates aspects of both basic science and clinical research, requiring specific skills and resources. In the present conference, experts from diverse international national universities will address issues concerned to herbal technology and translational research.

Dear Prof. Y. Madhusudhan Rao / Prof. Chandra Shekhar Reddy

Thanks for your interest to host APP Indo-African Conference at your esteemed institute..

Association of Pharmacy Professionals (APP), India (www.appconnect.in) is an organization consisting of more than 1000 professionals from all over India/Abroad and is registered under M.P. Society Registration Act, Govt. of India and willing to serve pharmacy profession in all aspects.

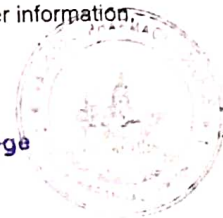

We have recently organized *Indo-Swiss Conference at Rani Durgavati University, Jabalpur, Madhya Pradesh; Indo-West Indies Conference on 'Advances in Pharmaceutical Sector and Healthcare Practices' at Narasaraopeta Institute of Pharmaceutical Sciences, Narasaraopet, Guntur, Andhra Pradesh; International Workshop on "Controlled Drug Delivery System: Recent Challenges and Opportunities Ahead" in collaboration with OMICS Group Incorporation, Las Vegas, USA at Crown Plaza, Dubai* and many more in series.

We will be glad to conduct **APP-VIPS collaborative Indo African Conference on 'Global Trends & Innovations in Pharmaceutical Sciences & Technology'** in association with APP Ethiopian International Branch either on 3rd Sep 2018 (or 6th Sep 2018). APP will honor 'BEST STUDENT' of your college/department with APP award and APP membership certificate (selected by director). APP will also honor Principal/Director of the hosting college with 'APP Profile Award' as per CV credentials with memento and Chairman of the college with 'APP Appreciation Award' with memento. Hosting college will be asked to donate to APP a token of Rs 100/delegate with a minimum of 300 delegates. APP will provide two speakers (TA will be provided by APP, no lecture charges will be given by hosting college) (College has to provide accommodation, mementoes & local hospitality to speakers) and APP will provide conference participation certificates (along with three best poster certificates with medals) to the hosting college. There is also provision of providing 'APP Best Achiever Award', 'APP Best Researcher Award'; 'APP Best Faculty/Teacher Award' and 'APP Best Research Scholar Award' among staff of hosting college (to be selected by principal/director on CV basis) provided they should join Association as life members. Proceedings of the conference will be published in a special issue of the Association triannual journal '*Bull. Pharm. Res.*' and best poster winners will be invited to submit full papers in the journal for publication.

Kindly go through the attached files for more details about Association of Pharmacy Professionals (APP). Also visit our website 'www.appconnect.in', 'www.journal.appconnect.in', 'www.appconnect.in/magazine' to get further information.

ABOUT THE SEMINAR:

Pharmaceutical Sciences is a dynamic and interdisciplinary field that aims to integrate fundamental principles of physical and organic chemistry, engineering, biochemistry and biology to understand how to optimize delivery of drugs to the body and translate this integrated understanding into new and improved therapies against human disease. Pharmaceutical technology is application of scientific knowledge or technology to pharmacy, pharmacology and the pharmaceutical industry. It includes methods, techniques and instrumentation in the manufacture, preparation, compounding, dispensing, packaging and storing of drugs and other preparations used in diagnostic and determinative procedures and in the treatment of patients. The pharmaceutical industry discovers, develops, produces and markets pharmaceutical drugs for use as medications to be administered to patients, with the aim to cure them, vaccinate them, or alleviate the symptoms. In the present conference, pharmaceutical experts from international and national universities will address the diverse issues related to pharmaceutical technology.
